

GENERAL EXPLANATION OF THE COUNTY BUDGET FORMAT

"Projected", representing estimates only of current yearend figures based upon financial data for nine months of the current year. These estimates do not include post closing adjustments and/or audit adjustments to expenditures or revenues which occur each year as a result of the examination of the County's financial records by the independent auditors only when the fiscal year is "closed out". Traditionally post closing and other audit adjustments have substantially changed the County's actual year end position when compared to the projected year end position.

"Requested", lists the amounts requested by each department for the ensuing fiscal year.

"Allowed", represents in the Proposed Budget the amounts recommended to be allowed by the County Executive and in the Adopted Budget the amounts actually appropriated or allowed by the Board of Legislators for the ensuing year.

The Personal Service section shows position titles, the job groups in the pay plans to which those positions are allocated, and the numbers of each position. To determine the compensation of a particular position, find the Roman numeral job group next to the position title. Then, using the salary scales printed at the end of the budget document, find the corresponding Roman numeral job group and applicable salary scale. Salaries of flat rated positions are shown opposite their respective titles. The salaries of elected officials have been budgeted at the maximum of the job group indicated. The actual compensation paid is dependent upon appropriate provision of law.

The appropriations for Annual Regular in the Requested and Allowed columns reflect the salary scales in effect and the compensation for which the incumbents of the titles are eligible at the time the budget is prepared. Savings have been taken to reflect part year increments to produce the total appropriation required. Adjustments may be made to reflect funding for current union contracts. Certain annualized positions are budgeted under Expenses. County wide position totals in all categories by department are presented in tabular form in Section B.

The Capital Budget, which is issued as a separate document, details the amount authorized and/or appropriated for the current and past year for each of the capital projects and the amount allowed for the ensuing year. The total of these amounts may not be the ultimate cost of these projects, but only that which is appropriated during the particular years cited. The method of financing these appropriations is shown in a similar manner. In addition, the County's capital and debt policies are enumerated in the Capital Budget introduction.

The Statement of Pending and Proposed Capital Projects consolidates information concerning estimated ultimate total cost, funds appropriated and expended to date, amounts allowed in the newly adopted budget as well as the financing. As required by the Charter, the Planning Board recommendations concerning each project are noted. The report of the Capital Projects Committee is also included.

GENERAL EXPLANATION OF THE COUNTY BUDGET FORMAT

In addition, a summary table of the Capital Budget expenditures and planned financing is presented to aid in analysis.

In 1991, the State Legislature authorized an additional one percent sales tax for the County on localities outside the cities and a corresponding spending cap limitation on all County non-mandated expenditures. This authorization has been extended through November 2025. County budgets for the years 1992 through 2025 comply, in all respects, with the spending cap limitation.

In 2011, the State Legislature enacted Chapter 97 of the Laws of 2011 to limit the annual increase in the tax levy to the lesser of 2% or the rate of inflation. The 2025 Budget complies, in all respects, to the "Tax Levy Limit Law."
