

Information Technology (16)

The Department of Information Technology – Records Center is responsible for the safe storage of County archival records as well as departmental records maintained at the County Records Center.

Programs and Services

Supervision of Countywide records management by a records management officer.

Provide for the orderly and efficient management of records, and oversee the retention and disposition of local government records legally authorized for destruction.

Provide advice and assistance to departments in the preparation, identification, packaging, labeling and numbering of records for storage, and to retrieve and re-file records disbursed from the Center.

State Law or Regulations

New York State Arts and Cultural Affairs Law, Article 57-A m Local Government Records Law. Westchester County Administrative Code Section 631.01, as amended.

Part 185, Official Compilation of Codes, Rules and Regulations of the State of New York (NYCRR), Regulations of the Commissioner of Education Pertaining to Local Government Records Management

Various laws and regulations govern disposition and destruction of specific records; such as court records, district attorney records, and financial records whose retention and disposition are not under the authority of the Commissioner of Education.

Information Technology (16)

PROGRAM AREA AND SERVICES:

GENERAL GOVERNMENT SUPPORT

- ✓ Software & Business Process Improvement: Thematically divided development teams work with departments to create and implement solutions for all areas of government, including Public Safety, Environment and Social Services.
- ✓ Infrastructure: Manages the network, data center, cyber security and recovery efforts; ensures constant connectivity and smooth County operations.
- ✓ Desktop Support: Responsible for office productivity software, all employee PCs, the IT Help Desk and implementing new hardware and software.
- ✓ GIS: Develops, maintains and distributes digital data and map related information, services, and programs in County and local governments.
- ✓ Archives: The central repository for the County's records from 1680 to present; benefits community, conservation and historical record.
- ✓ Communications & Westchester Telecom Network: All telecommunications services (video, voice, data) for the County and many municipalities.
- ✓ Records Management: Program for assuring County's compliance with state and federal regulations regarding records retention and disposition, including new Federal Rules for Civil Procedure, Freedom of Information Law requirements and legal discovery of e-records.
- ✓ Administration: Responsible for municipal shared services, contracts management, procurement/requisitions, financial analysis and budgeting.
- ✓ Graphics: Provides professional, original and creative graphic, web, advertising and marketing-arts solutions through cooperation with the County Executive's Office of Communications, department executive staff and public information officers to promote County programs and services.

PUBLIC HEALTH & SAFETY

- ✓ Deliver and manage the computer systems for the management and operation of the key executive public health and safety departments: Health, Public Safety, Emergency Services, Correction, Probation, Labs (forensics).
- ✓ Manage the system for handling all 911 calls from land-line phones and the 911 network.
- ✓ Deliver and manage the systems that provide for electronic public notifications.

DEPARTMENT INITIATIVES:

GENERAL GOVERNMENT SUPPORT

NEW

- ✓ Implementation of Power BI, a collection of software services that work together to streamline disparate data sources for visualization and data sharing. Reports, charts, dashboards and other visualization tools are being developed for internal and external audiences.
- ✓ Implementation of a new web-based tool in DoIT and other County departments to support project management activities.
- ✓ New payment voucher and billing portal to support operations in the Office of Assigned Counsel.
- ✓ Enhancement of the Adult Single Point of Access (SPOA) application for Department of Community Mental Health to enable the automated and secure submission of applications via a public-facing web application.
- ✓ Creation of a new public portal to replace the Department of Planning's Homeseeker site and fulfill expanded business requirements.
- ✓ Development of an electronic calendar for the Office for Work Activities Unit that will allow staff to create appointments, generate appointment letters and track interview attendance.
- ✓ Implementation of Endpoint Detection & Response (EDR) at partnering Westchester County municipalities.

Information Technology (16)

- ✓ Development of a system for Consumer Protection to manage the licensing of second-hand goods vendors.
- ✓ Upgrade of the “One Stop” web application that is used to locate and identify County-owned and leased properties.
- ✓ Upgrade of the system used by the Department of Public Works & Transportation to manage Motor Pool reservations, fuel management, garage and parts management, as well as fleet billing and reporting.

ON-GOING

- ✓ Replacement of the building access system's controllers at County office buildings in White Plains and other locations.
- ✓ New desk phone recording solution that will allow for parallel recordings at two locations for back-up purposes.
- ✓ Replacement of the fixed route CAD/AVL (Computer-Aided Dispatch / Automatic Vehicle Location) system for managing buses, trucks, or other vehicles that follow specific routes.
- ✓ Implementation of an enterprise-wide e-signature solution to streamline processing of internal and external documents requiring signature.
- ✓ Major upgrade of CGI/AMS Finance, Human Resources and Budget systems.
- ✓ Continued rollout of Webex Video Conference Units throughout the County to support virtual meetings.
- ✓ Continued expansion of the County's Timekeeper enterprise solution in additional County departments.
- ✓ Implementation of a Cyber Security Risk Remediation Plan in collaboration with the Board of Elections for the New York State Board of Elections.
- ✓ County website enhancements including a major upgrade to the back-end content management system as well as improvements to the site's design and integration of social media, video and photos.
- ✓ Expansion of security platform for the County including the implementation of new security products and services.
- ✓ Expansion of DoIT's cyber security awareness program to include additional resources and programming for County employees.
- ✓ Assistance with the evaluation and expansion of wireless and radio site leasing opportunities on County properties.
- ✓ Creation of new print and web media projects as determined by the County Executive's Office and County departments.
- ✓ Consolidation of file servers through virtualization to save operating system licenses and electricity, and to minimize downtime.
- ✓ Assistance to local municipalities in building geospatial programs which benefit both County and municipal business functions.
- ✓ Ongoing network management and connectivity support for all County departments, including the build-out of new infrastructure as required.
- ✓ Expansion of the County's Enterprise Asset Management (EAM) system.

PUBLIC HEALTH & SAFETY

NEW

- ✓ Upgrade of the security surveillance platform designed to monitor and protect County sites.
- ✓ Working with the Department of Emergency Services to replace the systems and equipment the County uses for first-responder communication via two National Interoperability channels.
- ✓ Assisting the Departments of Emergency Services and Planning in the reassessment of Hurricane Zone Vulnerability Analysis in order to refine evacuation zones and update associated GIS data layers.
- ✓ Upgrade of the criminal and civilian fingerprint and background check system, including the hardware, database and application.
- ✓ Development of a new GIS data layer of local Police District Wards, County Emergency Services Zones, Fire and EMS for integration with OnCall Dispatch and Records Management System (RMS) applications.

Information Technology (16)

- ✓ Working with the Department of Health to digitize their files, including the creation of new workflows for different document types.
- ✓ Update of the Public Safety Answer Point (PSAP) boundaries for E-911 services.

ON-GOING

- ✓ Upgrade of the Computer Aided Dispatch (CAD) system used by various emergency response, police and fire agencies throughout the County. The new web-based Oncall Dispatch application will include new mapping functionality and enhance call-taker and dispatcher performance.
- ✓ Implementation of a countywide Records Management System (RMS) for the Department of Public Safety that will provide greater transparency and collaboration between the County and local police agencies.
- ✓ Implementation of a new module in DOC's Organization, Scheduling and Logistical system to optimize overtime calls so that all staff have the opportunity to receive an equal amount of calls for overtime.
- ✓ Replacement of large mission critical voice radio communication systems currently utilized for police, fire, EMS and transit (Bee-Line) operations in the County.
- ✓ Development of an application that tracks and manages Police Academy Training course details and attendance.
- ✓ Upgrade of radio antennas at approximately 43 municipal police department headquarters.
- ✓ Maintenance and enhancements to public health & safety systems supporting daily operations in County departments.

DEPARTMENT ACCOMPLISHMENTS:

NEW

- ✓ Named one of the "Top 10 Digital Counties" in the United States (500,000 - 999,999 population category) for 2024 by the Center for Digital Government and National Association of Counties (NACo).

- ✓ Co-hosted a countywide Cybersecurity Tabletop Exercise with NYS Department of Homeland Security and Emergency Services (DHSES) on 5/8/24 with senior staff from all County departments to bolster the County's incident response capabilities and cybersecurity posture.
- ✓ Implemented Okta Multi-Factor Authentication (MFA), a leading identity management and access control platform that ensures secure and convenient access to various applications and resources.
- ✓ Implemented a solution to automate the creation of agendas and minutes for Board of Acquisition & Contract and live stream weekly meetings.
- ✓ Updated the County's password policies in order to be compliant with more stringent cybersecurity protocols and best practices.
- ✓ Replaced the Electronic Health Record/Case Management System used by the Department of Community Mental Health (DCMH).
- ✓ Replaced 2,500 security phones used for internal communication by Department of Correction staff at the County Jail.
- ✓ Developed a portal that allows the County to track the sale of used (second-hand) goods as per Westchester County Law, Section 863.253.
- ✓ Upgraded HID SAFE, the system that helps manage the identities and access privileges of County Airport employees and contractors.
- ✓ Worked with the County Attorney's Office to launch a new online portal for the Family Court Bureau of the County Attorney's Office. The portal facilitates the receipt and handling of discovery materials.
- ✓ Completed enhancements to the Minority and Women Owned Enterprise Application to improve functionality and administrative features.
- ✓ Worked with DES to stream County Trunked Radio System fire and EMS radio transmissions via the internet so that volunteer firefighters and EMS personnel can use their personal cellphones to monitor radio traffic.
- ✓ Implemented a Source Separation Inspection Data Viewer and Dashboard to enhance DEF's business operations.

Information Technology (16)

- ✓ Created an online field mapping application to facilitate the ongoing collection of dam inspection data for the Parks Department.
- ✓ Worked with the Departments of Public Safety and Consumer Protection to develop an application to track the sale of second-hand goods in Westchester County.
- ✓ Worked with BOE to update the Polling Place Search application to include subdivision information.
- ✓ Worked with the County Clerk and a vendor to scan and index all existing Building Loan Agreements (BLA) in response to County legislation that designates digitally converted or created records filed in the County Clerk's Office as official records.
- ✓ Developed a new application to support the Westchester County Business FIRST Launch 1000 application.
- ✓ Worked with the County Executive's office to implement a streamlined application process for County Boards and Commissions using a module of Granicus, the web-based civic engagement solution implemented by DoIT.
- ✓ Supported the Office of Emergency Management in creating a Damage Assessment ESRI hub site to create a centralized location to coordinate and conduct assessments of the extent of damage to infrastructure, property, and local communities.
- ✓ Developed an online Residential Food Scrap Transportation and Disposal application for DEF.
- ✓ Worked with Department of Health to develop a solution to scan and index Childhood Lead Files in the County's enterprise document repository.
- ✓ Installed remotely controlled radio-direction-finding system equipment at two sites to find the source of interference to County radio systems.
- ✓ Implemented an application that allows Public Safety to issue tickets more efficiently to taxi and limousine drivers.
- ✓ Customized the 2024 Point in Time (PIT) survey to perform the HUD-required count of the unsheltered and sheltered homeless population.
- ✓ Developed an Incident Management System (IMS) for Department of Correction to create and manage documentation generated for an incident.
- ✓ Upgrade of the application that allows Fire, Police and Emergency Medical Services (EMS) Agencies and other emergency responders to be alerted via text messaging or email when they are dispatched by the Emergency Services Communications Center.
- ✓ Collaborated with DEF to enhance the Odor Complaint Form and Yonkers Joint WRRF (Ludlow Park) Notification List, making them more user-friendly for the general public.
- ✓ Developed a new Scale House Reporting system that is used by both the County and external municipalities.
- ✓ Entered into an inter-municipal agreement (IMA) with Nassau County to obtain source code for their financial disclosure application which was modified by DoIT to meet the County's requirements.
- ✓ Developed an application that helps inspectors in the Town of Eastchester identify residential sign violations according to a new local law.
- ✓ Collaborated with the District Attorney, Public Safety, and Human Rights Commission (HRC), to enhance the Law Enforcement Sharing Portal.
- ✓ Completed the collection of countywide Spring 2024 aerial photography and Planimetric datasets. These base map datasets are integrated into nearly every County and local government GIS mapping application.

ON-GOING

- ✓ Continued to expand and attract additional visitors to the County's award-winning website as well as support and enhance the security of the content management system supporting County websites.
- ✓ Maintenance and support, including upgrades and/or expansions to all computer applications being used to support the daily operations of County departments.
- ✓ Continued to implement additional infrastructure and provide staff with licenses to access to the County's enterprise virtual meeting platform.

Information Technology (16)

- ✓ Continued to virtualize and consolidate server infrastructure in order to provide the County with a more cost-effective and energy-efficient solution.
- ✓ Continued to assist local municipalities in building geospatial programs which benefit both county and municipal business functions.
- ✓ Continued to support the County's Shared Services initiative to augment local government services in the areas of GIS, printing, network infrastructure/e-mail, public safety, etc.
- ✓ Continued to train and support County departments in their efforts to create accessible documents for the Web as per Americans with Disabilities Act (ADA) compliance standards.

REVENUES:

- ✓ Almost all costs of the department are charged back to other County departments, to grant programs and to municipal agencies that use IT services and systems.
