

Dept Of Social Services (22)

sharing strategies for successful implementation of initiatives within the Department, establishing Westchester County as standard for excellence and best practice. OEPD presentations have focused on strategies for employee engagement as well a change implementation.

Division of Financial Administration

Online Burial Assistance Application: The Financial Administration Department Recovery Unit worked with the County DoIT and created a web based burial eligibility wizard and burial assistance application to be available on the Department's website. This application will benefit both the general public and DSS staff. The online wizard and burial application will be available 24/7 as opposed to our current process which is limited to DSS regular business hours. The Burial Eligibility Wizard enables an individual to answer 9 general questions which detail preliminary eligibility requirements. This simple prescreening tool determines whether the decedent is likely to qualify for burial/cremation assistance. This online tool lessens unnecessary calls to the Recovery Unit and walk-ins to the District Offices. For 2023, there were 40 on-line burial applications processed via the Online Burial Application. 2024 is on pace for 65 applications.

Electronic Receipt Project: Each month the department receives approximately 1,800 checks and issues 650 checks to customers. Transactions are properly recorded and maintained through preparation of receipts, allocating them to specific programs and entering/scanning them into our Case Management and OnBase systems. To create a more efficient process, a single program is being designed which will allow us to prepare receipts electronically and save them along with a copy of the check in OnBase. The electronic receipts program has been successfully launched in 2020 and the receipts are being processed by the central and program offices (Medicaid Housing offices) that receive the recoupment, refund and recoveries checks and deposit the checks in the bank. The central office takes these receipts and also processes the recoupments received and reconciles all the receipts with deposit in the bank. Since the program was developed all the receipts from 2017 through 2021 are being scanned. From 2022 on, all electronically produced receipts with the copy of the checks that are linked to an individual receipt are saved into OnBase.

Contracts Management and Compliance Unit (CMCU): As part of the Division of Financial Administration, the Office of Contracts Management

and Compliance coordinates the development, acquisition and management of over 1,100 contractual agreements with community providers, non-profit organizations, small businesses, local municipalities, state and federal agencies. Over 50% of WCDSS contractual agreements for the purchase of services are procured through competitive bids, requests for proposals (RFP), request for quotations (RFQ), requests for information (RFI) and inter-municipal agreements (IMA) and grants. We are enhancing workflow procedures to support Program Office with vendor invoicing from purchases of service. We are in the initial stages of consolidating and centralizing the auditing of vendor invoices for the Office of Temporary Housing Assistance, with the plan to expand operations to manage claims auditing for other divisions within Social Services. Further expansion of unit operations includes:

- ◆ Establishing department-wide performance-based contracting;
- ◆ Development of vendor performance standards;
- ◆ Monitoring of contract budgets and budget modifications;
- ◆ Preparation of reports to establish cost/benefits of procured services.

As a result of the expansion and implementation of new procedures, we will establish a uniformed workflow model for the purchase, payment, performance and budget management of the Department's contractual agreements.
