Department Of Health (27)

PROGRAM AREA AND SERVICES:

Prevent and Control Communicable Disease

- ✓ Control the spread of over 80 reportable diseases through investigations sampling, surveillance and case management to ensure that infected and exposed individuals receive appropriate treatment to prevent the further spread of disease to others.
- ✓ Provide and promote child and adult immunizations.
- ✓ Diagnosis and treat tuberculosis (TB), including Latent TB infection (LTBI), sexually transmitted infections (STIs), and testing for HIV and Hepatitis C infections.
- ✓ Inform the medical community of emerging public health issues and recommend appropriate responses.
- ✓ Reduce HIV transmission by using surveillance data to identify HIV positive persons who have dropped out of care, identify partners for testing and serve as a clinical site for pre-exposure prophylaxis, and offer post-exposure prophylaxis urgently and refer all persons who test positive for HIV to primary care.
- ✓ Ensure individuals bitten by bats, dogs, cats, or other animals are evaluated for possible exposure to rabies, when possible and appropriate the animal is tested for rabies, and ensure that when indicated timely and appropriate rabies prophylaxis is received.

Protect the Environment

- ✓ Inspect and regulate public water systems, wastewater treatment facilities, fuel oil storage tanks, gas stations, chemical storage facilities and other potential sources of environmental contamination.
- ✓ Review and approve engineering plans for septic systems, water supply and sewage conveyance systems.
- ✓ Monitor and regulate food service establishments, hotels and motels, day camps, and public bathing beaches and swimming pools.
- ✓ In cooperation with the NYS Department of Environmental Conservation, monitor oil and gas spills, identify sources and verify appropriate clean up.

- ✓ Identify and mitigate environmental sources of lead, inspect high-risk housing and provide case management for children with elevated blood lead levels.
- ✓ Inspect diagnostic radiological facilities, monitor ambient radiation levels and respond to reports of accidental exposure.
- ✓ Assist owners and operators to develop sampling, disinfection and remediation protocols for Legionella bacteria in cooling towers, investigate reports of Legionnaires disease (including clusters of cases incurring in close physical proximity or from a commonly identified source) and monitor Westchester facilities in the NYS cooling tower registry for compliance.
- ✓ Active surveillance of disease bearing mosquitoes.
- ✓ Notify the public about rabid animals, send specimens to testing and implement other public health measures.
- ✓ Ensure enforcement of codes and regulations through an administrative hearing process and collection of civil penalties.
- ✓ Investigate public health complaints.

Inform, Educate and Collaborate with the Community

- ✓ Provide population-focused health education to residents through news media, special events, social media, website updates and 24-hour public health information lines.
- ✓ Partner with community-based organizations to help residents reduce their risk of chronic and communicable diseases, as well as newly emerging communicable diseases such as COVID and MPOX.
- ✓ Deliver and promote lifestyle change programs to address hypertension, diabetes and heart disease among residents.
- ✓ Provide nutrition education, breast feeding support, electronic benefits to purchase healthy foods and referrals to health and social services for low-income women, infants and children up to age five.
- ✓ Improve access to health insurance for residents.
- ✓ Continue as an Opioid Overdose Prevention Program certified by the NYSDOH to provide Narcan training.

Department Of Health (27)

- ✓ Develop communications for schools, businesses and other institutions to share with their constituents during a disease outbreak or other critical public health event to help prevent the spread of disease or exposure to toxins.

Plan, Assess and Evaluate Services

- ✓ Analyze data to assess the health status of residents and to evaluate trends in existing and emerging public health threats.
- ✓ In close cooperation with the Department of Emergency Services, prepare and coordinate responses to public health threats and emergencies.
- ✓ Manage the department's budgeting, financial reporting, human resources and contracting functions.
- ✓ Obtain and administer grants, State aid and third party reimbursement to maximize available revenue sources and reduce tax levies.
- ✓ Work with community partners, providers and advisory groups to address the public health needs of the community.
- ✓ Support development of a Public Health Strategic Plan and departmental quality improvement program.

Support Families and Children with Special Needs

- ✓ Provide administrative and fiscal oversight for the Early Intervention and 4410 Pre-school programs for children less than 5 years old with special needs.
- ✓ Enforce federal and state regulations to facilitate placement in natural/least restrictive educational settings with appropriate and cost-effective services.
- ✓ Coordinate with the New York State fiscal agent for the Early Intervention Program to ensure appropriate funding sources are maximized.
- ✓ Provide initial and ongoing service coordination activities to support gaps in provider capacity and conduct quality assurance for the Early Intervention Program.

- ✓ Partner with the State Education Department Regional staff to ensure compliance with federal laws and state regulations governing DOH contracted 4410 SED approved providers and enforce contracted 4410 and Related Service Providers compliance with Medicaid claiming requirements through the CPSE Portal and CSN fiscal and program monitoring.

- ✓ Ensure that transportation vendors comply with DOH-CSN contract requirements to provide safe and efficient transportation for children.

DEPARTMENT INITIATIVES:

- ✓ Completed the first two-year cycle of the NYS Public Health Fellowship Program and will welcome a new cohort of fellows to the department for NYS Fellowship 2.0 in September 2024.
- ✓ Consolidate the department's three main work sites into one office space, as well as reassess clinic and WIC spaces to determine opportunities for enhancements to support staff, client and program needs.
- ✓ Research procurement of an external communications platform to enhance collaboration and information sharing with community partners
- ✓ Explore new health inspection software to enhance customer service and improve operational efficiencies.
- ✓ Migrate to a new electronic health record to support patient care in public health clinics
- ✓ Conduct TB screening, and promote and provide vaccinations, health insurance access, health education and linkages to primary care services for newly arrived immigrants.
- ✓ Convene and issue public health alerts and advisories to hospitals, FQHCs, Urgent Care Centers, and medical practices to keep them up-to-date on priority public health issues to ensure proper testing and reporting of communicable and emerging diseases.
- ✓ Administer grants to improve Black maternal and infant health outcomes and reduce racial health inequities in Westchester County through capacity building of key community partners and by expanding access to community-based supportive services for Black birthing people.

Department Of Health (27)

- ✓ Provide funding to three Federally Qualified Health Centers (FQHCs) to support critical health care services for uninsured and underinsured residents and support New York State prevention agenda activities to reduce chronic diseases; promote healthy women, infants, and children; and prevent communicable diseases.
- ✓ Increase the rates of childhood and adult vaccinations by providing education and outreach to the public and health providers, and hosting immunization clinics to reach high risk and uninsured/underinsured persons with a focus on Hepatitis A, MMR (Measles, Mumps, Rubella), HPV, polio, COVID-19, Mpox and flu.
- ✓ Developed a relationship with Yonkers public schools which increased utilization of our Yonkers clinic as a resource for immunizing children at risk of being excluded from school for incomplete vaccinations.
- ✓ Provide pre-exposure prophylaxis (PrEP) to all persons seeking care in Sexual Health Clinics at high risk of acquiring HIV infection and initiate rapid antiretroviral therapy for persons testing positive for HIV and connect to an ongoing medical provider. Provide support to enroll uninsured persons into existing patient assistance programs to facilitate access to PrEP.
- ✓ Explore offering FastTrack Sexual Health clinic services that would allow asymptomatic patients to provide samples for STI testing without an appointment or clinical interview and exam.
- ✓ Collaborate with DCMH on the opening of behavioral health clinics that involves acquiring and a redesign of WCDH's White Plains Clinic site.
- ✓ Working to close the Article 34 CHHA, Home Health Agency, which has been inactive for a number of years.
- ✓ Develop a plan to expand patient navigation services at both clinical sites.
- ✓ Reduce mosquito-borne diseases by educating the public on how to avoid mosquito bites and eliminate breeding sites, distributing BTI Mosquito Dunks, conducting active surveillance of disease-bearing mosquitoes and implementing targeted larviciding activities.
- ✓ Created a workgroup for the Town of Lewisboro Sewer and Septic Plan comprised of state, county and locally elected officials and agencies, to develop a systematic approach to resolving the ineffective and sometimes failing septic systems around the Lewisboro Lake Region. Meetings have clarified roles and challenges that will need to be addressed in the approval process for these initiatives.
- ✓ Executed contracts with nine community and faith-based organizations to provide tobacco prevention and cessation programs for youth and adults in 2024.
- ✓ Provide oversight as required by NYS to ensure that public water suppliers and public schools perform lead testing.
- ✓ Collaborated with County Legislators and County Executive's Office on PFAS messaging, education and solutions for community water systems in areas where treatment and funding are meeting challenges with new federal EPA regulations.
- ✓ Explore an on-line restaurant permitting renewal system to enhance customer service and improve operational efficiencies.
- ✓ Undergoing a department-wide accreditation readiness assessment and preparation for the Public Health Accreditation Board (PHAB), which demonstrates the health department's commitment and capacity to meet national standards of performance, quality and accountability.
- ✓ Conduct a Community Health Assessment and Develop a Community Health Improvement Plan
- ✓ Resume and expand CSN preschool staff participation in school district meetings of the Committee on Preschool Special Education (CPSE) to ensure compliance with preschool regulatory requirements for appropriate program placement.
- ✓ Provide a plan for transition from the New York State Early Intervention System (NYEIS) to the EI Hub detailing necessary provider and CSN EI staff actions required to ensure a successful transition to the EI Hub
