

District Attorney (37)

young individuals successfully completing the program and going on to gain employment, securing housing, education and job training.

- ✓ Similarly, in New Rochelle, the Office continues to be a vital partner in Judge Jared Rice's New Rochelle City Court Opportunity Youth Part for emerging adults ages 16 to 24. To date, this life-changing model program has had a 91% rate of participants completing the program without a criminal record and receiving mental and substance abuse treatment, workforce development, and academic or mentoring services.

Committed to providing a practical and humane alternative for individuals who commit low-level offenses and need more effective treatment and services to address substance abuse issues, the Office launched the Westchester Overdose Prevention Treatment Initiative (OPT-In), which offers individuals facing misdemeanor charges the opportunity to participate in community-based treatment and services in lieu of prosecution. This program extends the Fresh Start model with a focus on the unique needs associated with substance use disorder, linking these individuals to treatment and health services. Since launching in White Plains, OPT-In has been expanded and is either launched or in the process of launching in over 15 jurisdictions. We are also partnered with Westchester County Police, NY State Police and Metropolitan Transportation Authority on the program. We hope to be countywide by the end of the year.

Understanding the connection between substance use disorder, mental health issues, and recidivism, the WCDAO continues to be committed to providing treatment alternatives to incarceration. Eligible individuals charged with felony offenses have the opportunity to participate in Judicial Diversion, felony Mental Health Court, and Veteran's Treatment Court. Upon successful completion of either program, the individual's charges may be reduced or dismissed.

ONGOING INITIATIVES:

Adapting to the challenges endured since the COVID-19 pandemic, the Office's quick response to support remote work and virtual court proceedings evolved to allow eligible WCDAO employees to work from home one day per week. We are pleased that this flexibility has shown to be effective and has had no negative impact on investigations and prosecutions.

Grant Funding and Development

The WCDAO has focused on continuing to find grants and outside funding to support all new and ongoing strategic initiatives. To date, the Office has secured historic grant funding for additional resources for staff, beyond what the county provides, to support our work in many existing and new areas. The Office has been a recipient of:

- ✓ Department of Justice (DOJ) grants that have funded a dedicated crime analyst for the Hate Crimes Unit (2021), with expanded funding in 2023 for certain Hate Crime Unit initiatives; including to fund counseling for offenders and restorative justice in appropriate cases;
- ✓ DOJ grant using DNA to solve cold cases (2022);
- ✓ DOJ grant to support human trafficking investigations (2023), which the Office will share with dedicated local police partners;
- ✓ DOJ grant to support the Discovery Bureau (2023); and
- ✓ Currently awaiting DOJ grant for community violence intervention and gun prevention initiative.

The Office of the District Attorney continues to coordinate the Gun Involved Violence Elimination (GIVE) Initiative, funded by the New York State Division of Criminal Justice Services. The GIVE Initiative's goal is to reduce and prevent shootings and homicides in Mount Vernon and Yonkers. To accomplish this goal, the WCDAO has partnered with those local police departments, the New York State Department of Corrections and Community Supervision, the Westchester Departments of Public Safety and Probation, and other community stakeholders.

Enhanced Training Program for Our Prosecutors

- ✓ The WCDAO recognizes the importance of regular-in house training to ensure ethical prosecutions and avoid wrongful convictions. Additionally, enhanced training instills confidence in our ADAs by providing a strong foundation to better understand their essential roles in the office and to know they are supported in their success as prosecutors. To achieve this goal, the WCDAO requires all recent law school graduates who are starting as ADAs to attend six weeks of initial training, which includes: (1) an orientation familiarizing them

District Attorney (37)

with the work of the office and office structure through guest presenters representing each of the divisions and specialized units in the office; (2) a series of lectures and interactive skills workshops that cover topics ranging from legal principles that they will likely encounter, to local criminal court practice, to drafting accusatory instruments, to plea considerations and sentencing, as well as suppression issues, hearings and trial technique, and ethical obligations; and (3) opportunities to shadow colleagues in the local criminal courts and observe the proceedings in diversionary courts. The District Attorney also instituted a new policy to ensure all junior prosecutors receive trauma-informed interview training to better equip them in supporting victims. As junior ADAs transition from the initial training phase, they are assigned to one of seven local court branches where, under the supervision of a Bureau Chief, they will inherit their own case load, draft motion responses, participate in court proceedings, and attend ongoing lectures in advanced topics, which will continue throughout their tenure in the office. Additionally, and recognizing a need to acclimate and train lateral hires (from other DA's offices), the Local Criminal Court and Training Division also conducts a week-long onboarding and training program for new lateral ADAs. This program focuses on the introduction to the structure and practices of the office by meeting with key personnel on ethics, data systems, discovery, and other specialized training necessary for work as a prosecutor in Westchester County.

Domestic Violence High Risk Training Initiative

- ✓ The Westchester County District Attorney's Office collaborates with the Westchester County Office for Women, the Pace Women's Justice Center, Westchester Medical Center (WMC) and a New York state group of active and retired police chiefs to train police departments throughout Westchester in the use of the Domestic Violence High Risk Training model and Lethality Assessment Program to assess the risk in domestic violence cases. All 42 Westchester police departments have completed basic training and the training team is actively involved in further specialized training. Additionally, and on a regular basis, the Domestic Violence High Risk Training Initiative also conducts in-service classes at the Westchester County Police Academy.

Child Abuse Multidisciplinary Team

- ✓ The WCDAO is a key member of this team which works together to reduce trauma to child victims by conducting joint investigations of child abuse by professionals throughout the county including law enforcement, child welfare, mental health professionals, child abuse pediatricians, and the staff at the Child Advocacy Center. The collaborative investigation includes sensitive forensic interviews of children and medical examinations by forensically-trained medical professionals. The interviews and medical exams take place at the Children's Advocacy Center, a child-friendly environment at the Westchester Institute for Human Development, and are coordinated by the Investigations Information Coordinator who is a member of the WCDAO'S Special Prosecutions Division.

Child Fatality Review Team

- ✓ This multidisciplinary team examines the circumstances that led to any suspicious death of a child, or the death of a child receiving services from the Westchester County Department of Social Services, with a focus on the prevention of future harm to children. The team includes the District Attorney's Office, the Medical Examiner, a forensic pediatrician, local police departments, Emergency Medical Services, the County Attorney, the Department of Social Services, and others. The team investigated 11 child fatalities in 2023 and, between its inception in 2006 through the end of 2023, it has reviewed a total of 193 child fatalities. The DA's Office also participates in the national CFRT's Safe Sleep program.

Northern Westchester Risk Reduction Team/Westchester County High Risk Team

- ✓ The Northern Westchester Risk Reduction Team-a collaboration among five northern Westchester police departments, domestic violence advocates, the District Attorney's Office, and the Westchester County High Risk Team Combine with the Westchester County Department of Probation-scrutinizes high-risk domestic violence cases and offers intervention strategies to combat and reduce risk in those communities.

Westchester County Anti-Trafficking Task Force

District Attorney (37)

- ✓ The Westchester County Anti-Trafficking Task Force (co-chaired by the WCDAO) has developed protocols for the investigation of sex and labor trafficking cases and works closely with the United States Attorney's Office, the Federal Bureau of Investigation, and the Department of Homeland Security and local police departments in a continuing effort to encourage inter-agency cooperation in the investigation and prosecution of human traffickers. The WCDAO and the Task Force also work collaboratively with government and non-government advocacy organizations who are active in the area of supporting victims of human trafficking.

Victim's Justice Center

- ✓ This multilingual center offers support and services to victims and their families to assist with the emotional, physical and financial impacts of crime. The center facilitates victim services ranging from counseling to funeral expense reimbursement to shelter placement. The center also has two full-time on-site trauma therapists, one of whom is Spanish-speaking, who are able to provide counseling to victims and their families. In 2023, the center handled more than 750 new cases providing a range of different services to crime victims in Westchester County. Moreover, the trauma center therapists provided more than 1100 therapy sessions.

Multilingual Complaint Lines and Access to Interpreters

- ✓ The District Attorney established a multilingual hotline, 914-995-TIPS (914-995-8477), for the public to report directly to the DA's Office hate crimes, bias incidents, victimization of immigrants, elder abuse, wage theft and other labor-related violations, law enforcement misconduct, public corruption, and other potential criminal matters. The TIPS line is available 24 hours a day, every day of the year. Callers can choose English, Spanish, Mandarin, Haitian Creole or Korean and use an automated menu to specify the area of their complaints. They are then directed to voicemail boxes to leave information. Experienced investigators and coordinators have been designated for each reporting category. The coordinators are automatically notified whenever a message is received and a member of the DA's investigative team follows up on all tips and complaints. The TIPS line has been actively used by the community and we are pleased that the community has an opportunity to refer matters directly to the office.

Combating Opioid Deaths

- ✓ The Opioid Response and Overdose Prevention Initiative (ORI) launched in February 2022 in response to a rise in overdose deaths in Westchester County during the COVID-19 pandemic. The ORI is a partnership between the Westchester County Departments of Community Mental Health, Social Services, Public Safety, the Medical Examiner's Office and the County Executive's Office, the Westchester County District Attorney's Office, and local and federal law enforcement. The ORI works to prevent overdoses and save lives through naloxone education and distribution, data collection, analysis, transparency and increased community education, outreach and support services for populations in need. The ORI also supports expanding medication assisted treatment and ensures that local law enforcement, emergency medical services, and the general community are equipped with potentially life-saving drugs. ORI members review proposals from interested parties in order to implement "Integrated Co-Occurring Substance Misuse and Mental Health Treatment Services" that will address mental health, substance misuse, and co-occurring and complex issues.

Community Outreach

- ✓ The Westchester County District Attorney's Office is committed to promoting public safety through a robust program of public education and crime prevention, that includes conducting legal presentations for law enforcement and the community. The DA, ADAs, and Criminal Investigators regularly are invited to classrooms, auditoriums, police departments, community centers, and festivals across Westchester County to talk to students, parents, residents, community organizations and law enforcement about internet safety and cyber bullying, hate crimes and bias incidents, juvenile justice, wage theft and labor fraud, elder abuse, scams targeting the elderly, vehicular crimes, sex crimes, animal cruelty, red flag laws, and the responsibilities of being a prosecutor at the DA's Office.
- ✓ The office also offers robust internship programs for college and law school students during the school year, which are designed to provide valuable experiences in all aspects of prosecutorial work and the criminal justice system. Interns are assigned to a Division/Bureau where they have opportunities to observe or help prepare cases for hearings and trials, conduct research, write briefs, and assist with

District Attorney (37)

investigations. In some cases, interns are given the opportunity to make court appearances pursuant to the Student Practice Order. Interns also have the opportunity to learn about and observe the criminal justice reform initiatives and diversion programs based in the specialty courts. Summer internships provide college and law school interns unique experiences such as participation in mock trials where the District Attorney and the executive team act as judges, and hearing presentations by a range of esteemed speakers in the legal field.

DEPARTMENT ACCOMPLISHMENTS

REVENUES:

- ✓ State Aid for the WCDAO is \$79,981 (as part of fixed funding for the DA from NY State).
- ✓ Grant Funding, aggressively pursued by the WCDAO, from state and federal agencies help offset the cost of new and existing law enforcement programs that benefit county residents. It is estimated that approximately \$4.6 million will be received in grant funds in 2024 to offset the cost of these programs.
